Author Index

Journal of Research on Computing in Education
Volume 23
Fall 1990-Summer 1991

The authors of the articles appearing in Volume 23 are cross-indexed with co-authors as well as with keywords drawn from each article's abstract. An index of the keywords follows this listing.

Robert M. Aiken
Hindsight: Reflections on Retraining Secondary School Teachers to Teach Computer Science, with Glenn E. Snelbecker, 23(3), 444.
Keywords: Teacher training/Computer science/Pascal

Joao Batista Araujo e Oliveira
The Economics of Educational Software Portability, 23(2), 318.
Keywords: Software portability/Technological change/Politics/Cost effectiveness

Sharon A. Baack
Attitudes Toward Computers: Views of Older Adults Compared with Those of Young Adults, with Thomas S. Brown and James T. Brown, 23(3), 422.
Keywords: Attitudes/Computer utilization/Measurement

Joseph E. Behar
Challenges of the New Information Age Curriculum: Computers and the Liberal Arts, with Michael S. Hackett, 23(4), 568.
Keywords: Academic computing/Computer literacy/Curriculum design/Higher education

Bengt Bengtsson
Portability of Educational Software: Some Reflections from a Scandinavian Point of View, 23(2), 161.
Keywords: Software portability/Scandinavia/Software design

Frank M. Bernt
Testing by Computer: Findings in Six Years of Use 1982-1988, with Alan C. Bugbee, Jr., 23(1), 87.
Keywords: Testing/Measurement/Evaluation

Alfred Bork
International Development of Technology-Based Learning Courses, 23(2), 173.
Keywords: Software portability/Instructional computing

William C. Bozeman
Technological Competence: Training Educational Leaders, with Dennis W. Spuck, 23(4), 514.
Keywords: Administrative applications/Computer literacy/Technological change

Thomas S. Brown
Attitudes Toward Computers: Views of Older Adults Compared with Those of Young Adults, with Sharon A. Baack and James T. Brown, 23(3), 422.
Keywords: Attitudes/Computer utilization/Measurement

James T. Brown
Attitudes Toward Computers: Views of Older Adults Compared with Those of Young Adults, with Sharon A. Baack and Thomas S. Brown, 23(3), 422.
Keywords: Attitudes/Computer utilization/Measurement

Alan C. Bugbee, Jr.
Testing by Computer: Findings in Six Years of Use 1982-1988, with Frank M. Bernt, 23(1), 87.
Keywords: Testing/Measurement/Evaluation

O. Maxie Burns
Contemporary Attitudes Toward Computers: An Explanation of Behavior, with David L. Turnipseed, 23(4), 611.
Keywords: Attitudes/Computer literacy/Technological change

J. Christian Busch
The Change-Over to Computer-Based Technology in Early Childhood Special Education, with Janice R. Howard, J. Allen Watson and Daniel D. Shade, 23(4), 530.
Keywords: Special education/Early childhood education/Instructional computing

Edward G. Cale, Jr.
Student Perceptions of Information Systems Careers: Misconceptions and Declining Enrollments, with Charles H. Mawhinney and David R. Callaghan, 23(3), 434.
Keywords: Perceptions/Business administration/Management information

David R. Callaghan
Student Perceptions of Information Systems Careers: Misconceptions and Declining Enrollments, with Edward G. Cale, Jr. and Charles H. Mawhinney, 23(3), 434.
Keywords: Perceptions/Business administration/Management information

Jo Ann C. Carland
Cognitive Styles and the Education of Computer Information Systems Students, with James W. Carland, 23(1), 114.
Keywords: Cognitive style/Student performance

James W. Carland
Cognitive Styles and the Education of Computer Information Systems Students, with Jo Ann C. Carland, 23(1), 114.
Keywords: Cognitive style/Student performance

Betty A. Collis
The Portability of Computer-Related Educational Resources: An Overview of Issues and Directions, with Italo De Diana, 23(2), 147.
Keywords: Software portability/Technological change/Computer utilization

The Impact of Different Portability Factors During the Life Cycle of an Educational Software Adaptation Project, with Italo De Diana, 23(2), 306.
Keywords: Software portability/Software development

The Portability of Computer-Related Educational Resources: Summary and Directions for Further Research, with Italo De Diana, 23(2), 335.
Keywords: Software portability/Cross-culture/Technological change

Italo De Diana
Adaptable Educational Courseware: An Antidote to Several Portability Problems, with Sjoerd de Vries, 23(2), 225.
Keywords: Software portability/Software design

The Portability of Computer-Related Educational Resources: Summary and Directions for Further Research, with Betty A. Collis, 23(2), 335.
Keywords: Software portability/Cross-culture/Technological change

The Portability of Computer-Related Educational Resources: An Overview of Issues and Directions, with Betty A. Collis, 23(2), 147.
Keywords: Software portability/Technological change/Computer utilization

The Impact of Different Portability Factors During the Life Cycle of an Educational Software Adaptation Project, with Betty A. Collis, 23(2), 306.
Keywords: Software portability/Software development

Sjoerd de Vries
Adaptable Educational Courseware: An Antidote to Several Portability Problems, with Italo De Diana, 23(2), 225.
Keywords: Software portability/Software design

Curt Dudley-Marling
The Introduction of Word Processing Into a Grade 7/8 Writing Program, with Jo Oppenheimer, 23(1), 28.
Keywords: Word processing/Writing/Social interaction

Donald P. Ely
Portability: Cross-cultural Educational Perspectives, 23(2), 272.
Keywords: Software evaluation/Cross-culture/Software portability

Conditions that Facilitate the Implementation of Educational Technology Innovations, 23(2), 298.
Keywords: Software portability/Technological change

Frederick P. Frank
Expert Systems: Human Issues, Dianne Berry and Anna Hart, eds., 23(4), 626.
Keywords: Book review

Kerry Freedman
The Use of Applications Software in School: Development Processes as a Model for Situated Learning, with Anju Relan, 23(1), 101.
Keywords: Graphics/Art education/Teaching methods

Batya Friedman
Social and Moral Development Through Computer Use: A Constructivist Approach, 23(4), 560.
Keywords: Cooperation/Moral development/Social development/Computer uses in education

Greg Grimmett
Is Logo Portable?: An Australian Experience, 23(2), 195.
Keywords: Logo/Australia/Software portability

Michael S. Hackett
Challenges of the New Information Age Curriculum: Computers and the Liberal Arts, with Joseph E. Behar, 23(4), 568.
Keywords: Academic computing/Computer literacy/Curriculum design/Higher education

Elizabeth Hooper
Simulations: An Opportunity We Are Missing, with Rex Thomas, 23(4), 497.
Keywords: Simulation/Research/Instructional computing

Janice R. Howard
The Change-Over to Computer-Based Technology in Early Childhood Special Education, with J. Christian Busch, J. Allen Watson and Daniel D. Shade, 23(4), 530.
Keywords: Special education/Early childhood education/Instructional computing

Stephen L. Jacobson
Microcomputer Applications for Strategic Management in Education, by Craig E. Richards, 23(1), 142.
Keywords: Book review

David E. Johnson, Jr.
Management Information Systems and Student Affairs, with David (Chi-Chung) Yen, 23(1), 127.
Keywords: Management information systems/Administration applications/Telecommunications/Database management system

Greg Kearsley
Designing Educational Software for International Use, 23(2), 242.
Keywords: Software portability/Software design

Janet K. Keller
Characteristics of Logo Instruction Promoting Transfer of Learning: A Research Review, 23(1), 55.
Keywords: Logo/Training/Cognitive skills/Teaching methods

Zhongmin Li
Transaction Shells: A New Approach to Courseware Authoring, with M. David Merrill, 23(1), 72.
Keywords: Courseware/Authoring languages/Computer aided instruction/Instructional design

William M. Lidwell
The Emperor's New Mind, by Roger Penrose, with David B. Palumbo, 23(4), 629.
Keywords: Book review

Debra A. Lieberman
Learning to Learn Revisited: Computers and the Development of Self-Directed Learning Skills, with Marcia C. Linn, 23(3), 373.
Keywords: Computer assisted instruction/Computer managed instruction/Software evaluation/Problem solving

Marcia C. Linn
Learning to Learn Revisited: Computers and the Development of Self-Directed Learning Skills, with Debra A. Lieberman, 23(3), 373.
Keywords: Computer assisted instruction/Computer managed instruction/Software evaluation/Problem solving

Kate Mackowiak
The Effects of Faculty Characteristics on Computer Applications in Instruction, 23(3), 396.
Keywords: Instruction and computing/Higher education/Technological change

Charles H. Mawhinney
Student Perceptions of Information Systems Careers: Misconceptions and Declining Enrollments, with Edward G. Cale, Jr. and David R. Callaghan, 23(3), 434.
Keywords: Perceptions/Business administration/Management information

M. David Merrill
Transaction Shells: A New Approach to Courseware Authoring, with Zhongmin Li, 23(1), 72.
Keywords: Courseware/Authoring languages/Computer aided instruction/Instructional design

Marco Murray-Lasso
Cultural and Social Restraints on Portability, 23(2), 252.
Keywords: Software portability/Instructional computing/Cross-cultural

Cor G. J. Nagtegaal
The POCO Project: A Response to the Portability Dilemma, 23(2), 184.
Keywords: Software portability/Netherlands, The/Software design

James E. Novitzki
The Level of Computer Use in Schools of Business, 23(3), 452.
Keywords: Computer utilization/Microcomputers/Higher education/Business administration

Jo Oppenheimer
The Introduction of Word Processing Into a Grade 7/8 Writing Program, with Curt Dudley-Marling, 23(1), 28.
Keywords: Word processing/Writing/Social interaction

David B. Palumbo
The Effect of BASIC Programming Language Instruction on High School Students' Problem Solving Ability and Computer Anxiety, with W. Michael Reed, 23(3), 343.
Keywords: Problem solving/Programming/Attitudes

The Emperor's New Mind, by Roger Penrose, with William M. Lidwell, 23(4), 629.
Keywords: Book review

Geoffrey Potter
Computer-Related Media Portability in International Distance Education: Making Informed Decisions, 23(2), 284.
Keywords: Software portability/Distance education

R. L. Prickett
Administrative Computer Use by Secondary Principals, with D. W. Witten and M. D. Richardson, 23(4), 586.
Keywords: Computer utilization/Administrative applications/Secondary education

W. Michael Reed
The Effect of Computer-and-Writing Instruction on Prospective English Teachers' Attitudes Toward and Perceived Uses of Computers in Writing Instructio, 23(1), 3.
Keywords: Writing/Attitudes/English

The Effect of BASIC Programming Language Instruction on High School Students' Problem Solving Ability and Computer Anxiety, with David B. Palumbo, 23(3), 343.
Keywords: Problem solving/Programming/Attitudes

Anju Relan
The Use of Applications Software in School: Development Processes as a Model for Situated Learning, with Kerry Freedman, 23(1), 101.
Keywords: Graphics/Art education/Teaching methods

M. D. Richardson
Administrative Computer Use by Secondary Principals, with D. W. Witten and R. L. Prickett, 23(4), 586.
Keywords: Computer utilization/Administrative applications/Secondary education

Daniel D. Shade
The Change-Over to Computer-Based Technology in Early Childhood Special Education, with Janice R. Howard, J. Christian Busch and J. Allen Watson, 23(4), 530.
Keywords: Special education/Early childhood education/Instructional computing

Sharon A. Shrock
The Role of the Child Microcomputer Expert in an Elementary Classroom: A Theme Emerging from a Naturalistic Study, with Sidney L. Stepp, 23(4), 545.
Keywords: Social interaction/Elementary education/Instructional computing/Implementation

Glenn E. Snelbecker
Hindsight: Reflections on Retraining Secondary School Teachers to Teach Computer Science, with Robert M. Aiken, 23(3), 444.
Keywords: Teacher training/Computer science/Pascal

Carolee Sormunen
Language Arts and Keyboarding Skill Development: A Viable Approach for Teaching Elementary School Students, with Gail Wickersham, 23(3), 463.
Keywords: Language arts/Keyboarding/Word processing/English

Dennis W. Spuck
Technological Competence: Training Educational Leaders, with William C. Bozeman, 23(4), 514.
Keywords: Administrative applications/Computer literacy/Technological change

Ivan Stanchev
Software Engineering for Portability, 23(2), 204.
Keywords: Software portability/Software design

Sidney L. Stepp
The Role of the Child Microcomputer Expert in an Elementary Classroom: A Theme Emerging from a Naturalistic Study, with Sharon A. Shrock, 23(4), 545.
Keywords: Social interaction/Elementary education/Instructional computing/Implementation

Moshe Telem
A Knowledge Base for Information Technology in Educational Administration, 23(4), 594.
Keywords: Administrative applications/Management information systems/System design

Rex Thomas
Simulations: An Opportunity We Are Missing, with Elizabeth Hooper, 23(4), 497.
Keywords: Simulation/Research/Instructional computing

Roberta Trachtman
Educational Computing Foundations, by Michael R. Simonson and Ann Thompson., 23(3), 470.
Keywords: Book review

David L. Turnipseed
Contemporary Attitudes Toward Computers: An Explanation of Behavior, with O. Maxie Burns, 23(4), 611.
Keywords: Attitudes/Computer literacy/Technological change

Jeroen J. G. van Merriënboer
Instructional Strategies for Teaching Computer Programming: Interactions with the Cognitive Style Reflection-Impulsivity, 23(1), 45.
Keywords: Programming/Cognitive style/Instructional design

J. Allen Watson
The Change-Over to Computer-Based Technology in Early Childhood Special Education, with Janice R. Howard, J. Christian Busch and Daniel D. Shade, 23(4), 530.
Keywords: Special education/Early childhood education/Instructional computing

Gail Wickersham
Language Arts and Keyboarding Skill Development: A Viable Approach for Teaching Elementary School Students, with Carolee Sormunen, 23(3), 463.
Keywords: Language arts/Keyboarding/Word processing/English

Judith D. Wilson
Artificial Intelligence and Tutoring Systems: Computational Approaches to the Communication of Knowledge, by Etienne Wenger, 23(1), 140.
Keywords: Book review

D. W. Witten
Administrative Computer Use by Secondary Principals, with M. D. Richardson and R. L. Prickett, 23(4), 586.
Keywords: Computer utilization/Administrative applications/Secondary education

Janice E. J. Woodrow
Teachers' Perceptions of Computer Needs, 23(4), 475.
Keywords: Teacher training/Needs assessment/Technological change

Peter Wright
An Approach to Evaluating Student Information Management Systems, 23(3), 411.
Keywords: Administrative applications/Management/Information systems/Evaluation

David (Chi-Chung) Yen
Management Information Systems and Student Affairs, with David E. Johnson, Jr., 23(1), 127.
Keywords: Management information systems/Administration Applications/Telecommunications/Database management system

Keywords Index

Journal of Research on Computing in Education
Volume 23
Fall 1990-Summer 1991

The keywords of the articles appearing in Volume 23 are cross-indexed with other keywords as well as with each article's author. An index of this volume's authors precedes this listing.

Academic Computing
Challenges of the New Information Age Curriculum: Computers and the Liberal Arts, by Joseph E. Behar, with Michael S. Hackett, 23(4), 568.

Administrative Applications
Management Information Systems and Student Affairs, by David E. Johnson, Jr., with David (Chi-Chung) Yen, 23(1), 127.
Technological Competence: Training Educational Leaders, by William C. Bozeman, with Dennis W. Spuck, 23(4), 514.
A Knowledge Base for Information Technology in Educational Administration, by Moshe Telem, 23(4), 594.
An Approach to Evaluating Student Information Management Systems, by Peter Wright, 23(3), 411.
Administrative Computer Use by Secondary Principals, by D. W. Witten, with M. D. Richardson and R. L. Prickett, 23(4), 586.

Art Education
The Use of Applications Software in School: Development Processes as a Model for Situated Learning, by Kerry Freedman, with Anju Relan, 23(1), 101.

Attitudes
Attitudes Toward Computers: Views of Older Adults Compared with Those of Young Adults, by Sharon A. Baack, with Thomas S. Brown and James T. Brown, 23(3), 422.
Contemporary Attitudes Toward Computers: An Explanation of Behavior, by David L. Turnipseed, with O. Maxie Burns, 23(4), 611.
The Effect of Computer-and-Writing Instruction on Prospective English Teachers' Attitudes Toward and Perceived Uses of Computers in Writing Instruction, by W. Michael Reed, 23(1), 3
The Effect of BASIC Programming Language Instruction on High School Students' Problem Solving Ability and Computer Anxiety, by David B. Palumbo, with W. Michael Reed, 23(3), 343.

Australia
Is Logo Portable?: An Australian Experience, by Greg Grimmett, 23(2), 195.

Authoring Languages

Transaction Shells: A New Approach to Courseware Authoring, by Zhongmin Li, with M. David Merrill, 23(1), 72.

Book Reviews

Microcomputer Applications for Strategic Management in Education, by Craig E. Richards, reviewed by Stephen L. Jacobson, 23(1), 142.

Artificial Intelligence and Tutoring Systems: Computational Approaches to the Communication of Knowledge, by Etienne Wenger, reviewed by Judith D. Wilson, 23(1), 140.

The Emperor's New Mind, by Roger Penrose, reviewed by William M. Lidwell, with David B. Palumbo, 23(4), 629.

Expert Systems: Human Issues, Dianne Berry and Anna Hart, eds., reviewed by Frederick P. Frank, 23(4), 626.

Educational Computing Foundations, by Michael R. Simonson and Ann Thompson., reviewed by Roberta Trachtman, 23(3), 470.

Business Administration

Student Perceptions of Information Systems Careers: Misconceptions and Declining Enrollments, by Edward G. Cale, Jr., with Charles H. Mawhinney and David R. Callaghan, 23(3), 434.

The Level of Computer Use in Schools of Business, by James E. Novitzki, 23(3), 452.

Cognitive Skills

Characteristics of Logo Instruction Promoting Transfer of Learning: A Research Review, by Janet K. Keller, 23(1), 55.

Cognitive Style

Cognitive Styles and the Education of Computer Information Systems Students, by Jo Ann C. Carland, with James W. Carland, 23(1), 114.

Instructional Strategies for Teaching Computer Programming: Interactions with the Cognitive Style Reflection-Impulsivity, by Jeroen J. G. van Merriënboer, 23(1), 45.

Computer Aided Instruction

Transaction Shells: A New Approach to Courseware Authoring, by Zhongmin Li, with M. David Merrill, 23(1), 72.

Computer Assisted Instruction

The Effects of Faculty Characteristics on Computer Applications in Instruction, by Kate Mackowiak, 23(3), 396.

Learning to Learn Revisited: Computers and the Development of Self-Directed Learning Skills, by Debra A. Lieberman, with Marcia C. Linn, 23(3), 373.

Computer Literacy

Challenges of the New Information Age Curriculum: Computers and the Liberal Arts, by Joseph E. Behar, with Michael S. Hackett, 23(4), 568.

Technological Competence: Training Educational Leaders, by William C. Bozeman, with Dennis W. Spuck, 23(4), 514.
Contemporary Attitudes Toward Computers: An Explanation of Behavior, by David L. Turnipseed, with O. Maxie Burns, 23(4), 611.

Computer Managed Instruction
Learning to Learn Revisited: Computers and the Development of Self-Directed Learning Skills, by Debra A. Lieberman, with Marcia C. Linn, 23(3), 373.

Computer Science
Hindsight: Reflections on Retraining Secondary School Teachers to Teach Computer Science, by Robert M. Aiken, with Glenn E. Snelbecker, 23(3), 444.

Computer Utilization
The Portability of Computer-Related Educational Resources: An Overview of Issues and Directions, by Betty A. Collis, with Italo De Diana, 23(2), 147.
The Level of Computer Use in Schools of Business, by James E. Novitzki, 23(3), 452.
Administrative Computer Use by Secondary Principals, by D. W. Witten, with M. D. Richardson and R. L. Prickett, 23(4), 586.
Social and Moral Development Through Computer Use: A Constructivist Approach, by Batya Friedman, 23(4), 560.
Attitudes Toward Computers: Views of Older Adults Compared with Those of Young Adults, by Sharon A. Baack, with Thomas S. Brown and James T. Brown, 23(3), 422.

Cooperation
Social and Moral Development Through Computer Use: A Constructivist Approach, by Batya Friedman, 23(4), 560.

Cost Effectiveness
The Economics of Educational Software Portability, by Joao Batista Araujo e Oliveira, 23(2), 318.

Courseware
Transaction Shells: A New Approach to Courseware Authoring, by Zhongmin Li, with M. David Merrill, 23(1), 72.

Cross-culture
Cultural and Social Restraints on Portability, by Marco Murray-Lasso, 23(2), 252.
The Portability of Computer-Related Educational Resources: Summary and Directions for Further Research, by Italo De Diana, with Betty A. Collis, 23(2), 335.
Portability: Cross-cultural Educational Perspectives, by Donald P. Ely, 23(2), 272.

Curriculum Design
Challenges of the New Information Age Curriculum: Computers and the Liberal Arts, by Joseph E. Behar, with Michael S. Hackett, 23(4), 568.

Database Management
Management Information Systems and Student Affairs, by David E. Johnson, Jr., with David (Chi-Chung) Yen, 23(1), 127.

Distance Education
Computer-Related Media Portability in International Distance Education: Making Informed Decisions, by Geoffrey Potter, 23(2), 284.

Early Childhood Education
The Change-Over to Computer-Based Technology in Early Childhood Special Education, by Janice R. Howard, with J. Christian Busch, J. Allen Watson and Daniel D. Shade, 23(4), 530.

Elementary Education
The Role of the Child Microcomputer Expert in an Elementary Classroom: A Theme Emerging from a Naturalistic Study, by Sharon A. Shrock, with Sidney L. Stepp, 23(4), 545.

English
The Effect of Computer-and-Writing Instruction on Prospective English Teachers' Attitudes Toward and Perceived Uses of Computers in Writing Instructio, by W. Michael Reed, 23(1), 3
Language Arts and Keyboarding Skill Development: A Viable Approach for Teaching Elementary School Students, by Carolee Sormunen, with Gail Wickersham, 23(3), 463.

Evaluation
Testing by Computer: Findings in Six Years of Use 1982-1988, by Alan C. Bugbee, Jr., with Frank M. Bernt, 23(1), 87.
An Approach to Evaluating Student Information Management Systems, by Peter Wright, 23(3), 411.

Graphics
The Use of Applications Software in School: Development Processes as a Model for Situated Learning, by Kerry Freedman, with Anju Relan, 23(1), 101.

Higher Education
The Effects of Faculty Characteristics on Computer Applications in Instruction, by Kate Mackowiak, 23(3), 396.
The Level of Computer Use in Schools of Business, by James E. Novitzki, 23(3), 452.
Challenges of the New Information Age Curriculum: Computers and the Liberal Arts, by Joseph E. Behar, with Michael S. Hackett, 23(4), 568.

Implementation
The Role of the Child Microcomputer Expert in an Elementary Classroom: A Theme Emerging from a Naturalistic Study, by Sharon A. Shrock, with Sidney L. Stepp, 23(4), 545.

Information Systems

An Approach to Evaluating Student Information Management Systems, by Peter Wright, 23(3), 411.

Instructional Computing

International Development of Technology-Based Learning Courses, by Alfred Bork, 23(2), 173.

Cultural and Social Restraints on Portability, by Marco Murray-Lasso, 23(2), 252.

The Change-Over to Computer-Based Technology in Early Childhood Special Education, by Janice R. Howard, with J. Christian Busch, J. Allen Watson and Daniel D. Shade, 23(4), 530.

The Role of the Child Microcomputer Expert in an Elementary Classroom: A Theme Emerging from a Naturalistic Study, by Sharon A. Shrock, with Sidney L. Stepp, 23(4), 545.

Simulations: An Opportunity We Are Missing, by Rex Thomas, with Elizabeth Hooper, 23(4), 497.

Instructional Design

Instructional Strategies for Teaching Computer Programming: Interactions with the Cognitive Style Reflection-Impulsivity, by Jeroen J. G. van Merriënboer, 23(1), 45.

Transaction Shells: A New Approach to Courseware Authoring, by Zhongmin Li, with M. David Merrill, 23(1), 72.

Keyboarding

Language Arts and Keyboarding Skill Development: A Viable Approach for Teaching Elementary School Students, by Carolee Sormunen, with Gail Wickersham, 23(3), 463.

Language Arts

Language Arts and Keyboarding Skill Development: A Viable Approach for Teaching Elementary School Students, by Carolee Sormunen, with Gail Wickersham, 23(3), 463.

Logo

Is Logo Portable?: An Australian Experience, by Greg Grimmett, 23(2), 195.

Characteristics of Logo Instruction Promoting Transfer of Learning: A Research Review, by Janet K. Keller, 23(1), 55.

Management

An Approach to Evaluating Student Information Management Systems, by Peter Wright, 23(3), 411.

Management Information Systems and Student Affairs, by David E. Johnson, Jr., with David (Chi-Chung) Yen, 23(1), 127.

Management Information

A Knowledge Base for Information Technology in Educational Administration, by Moshe Telem, 23(4), 594.

Student Perceptions of Information Systems Careers: Misconceptions and Declining Enrollments, by Edward G. Cale, Jr., with Charles H. Mawhinney and David R. Callaghan, 23(3), 434.

Measurement

Testing by Computer: Findings in Six Years of Use 1982-1988, by Alan C. Bugbee, Jr., with Frank M. Bernt, 23(1), 87.

Attitudes Toward Computers: Views of Older Adults Compared with Those of Young Adults, by Sharon A. Baack, with Thomas S. Brown and James T. Brown, 23(3), 422.

Microcomputers

The Level of Computer Use in Schools of Business, by James E. Novitzki, 23(3), 452.

Moral Development

Social and Moral Development Through Computer Use: A Constructivist Approach, by Batya Friedman, 23(4), 560.

Needs Assessment

Teachers' Perceptions of Computer Needs, by Janice E. J. Woodrow, 23(4), 475.

Netherlands, The

The POCO Project: A Response to the Portability Dilemma, by Cor G. J. Nagtegaal, 23(2), 184.

Pascal

Hindsight: Reflections on Retraining Secondary School Teachers to Teach Computer Science, by Robert M. Aiken, with Glenn E. Snelbecker, 23(3), 444.

Perceptions

Student Perceptions of Information Systems Careers: Misconceptions and Declining Enrollments, by Edward G. Cale, Jr. , with Charles H. Mawhinney and David R. Callaghan, 23(3), 434.

Politics

The Economics of Educational Software Portability, by Joao Batista Araujo e Oliveira, 23(2), 318.

Problem Solving

The Effect of BASIC Programming Language Instruction on High School Students' Problem Solving Ability and Computer Anxiety, by David B. Palumbo, with W. Michael Reed, 23(3), 343.

Learning to Learn Revisited: Computers and the Development of Self-Directed Learning Skills, by Debra A. Lieberman, with Marcia C. Linn, 23(3), 373.

Programming

Instructional Strategies for Teaching Computer Programming: Interactions with the Cognitive Style Reflection-Impulsivity, by Jeroen J. G. van Merriënboer, 23(1), 45.

The Effect of BASIC Programming Language Instruction on High School Students' Problem Solving Ability and Computer Anxiety, by David B. Palumbo, with W. Michael Reed, 23(3), 343.

Research

Simulations: An Opportunity We Are Missing, by Rex Thomas, with Elizabeth Hooper, 23(4), 497.

Scandinavia

Portability of Educational Software: Some Reflections from a Scandinavian Point of View, by Bengt Bengtsson, 23(2), 161.

Secondary Education

Administrative Computer Use by Secondary Principals, by D. W. Witten, with M. D. Richardson and R. L. Prickett, 23(4), 586.

Simulation

Simulations: An Opportunity We Are Missing, by Rex Thomas, with Elizabeth Hooper, 23(4), 497.

Social Development

Social and Moral Development Through Computer Use: A Constructivist Approach, by Batya Friedman, 23(4), 560.

Social Interaction

The Role of the Child Microcomputer Expert in an Elementary Classroom: A Theme Emerging from a Naturalistic Study, by Sharon A. Shrock, with Sidney L. Stepp, 23(4), 545.

The Introduction of Word Processing Into a Grade 7/8 Writing Program, by Curt Dudley-Marling, with Jo Oppenheimer, 23(1), 28.

Software Design

Adaptable Educational Courseware: An Antidote to Several Portability Problems, by Italo De Diana, with Sjoerd de Vries, 23(2), 225.

Designing Educational Software for International Use, by Greg Kearsley, 23(2), 242.

Portability of Educational Software: Some Reflections from a Scandinavian Point of View, by Bengt Bengtsson, 23(2), 161.

Software Engineering for Portability, by Ivan Stanchev, 23(2), 204.

The POCO Project: A Response to the Portability Dilemma, by Cor G. J. Nagtegaal, 23(2), 184.

Software Development

The Impact of Different Portability Factors During the Life Cycle of an Educational Software Adaptation Project, by Betty A. Collis, with Italo De Diana, 23(2), 306.

Software Evaluation

Portability: Cross-cultural Educational Perspectives, by Donald P. Ely, 23(2), 272.

Learning to Learn Revisited: Computers and the Development of Self-Directed Learning Skills, by Debra A. Lieberman, with Marcia C. Linn, 23(3), 373.

Software Portability

The Economics of Educational Software Portability, by Joao Batista Araujo e Oliveira, 23(2), 318.

International Development of Technology-Based Learning Courses, by Alfred Bork, 23(2), 173.

The Portability of Computer-Related Educational Resources: An Overview of Issues and Directions, by Betty A. Collis, with Italo De Diana, 23(2), 147.

The Impact of Different Portability Factors During the Life Cycle of an Educational Software Adaptation Project, by Betty A. Collis, with Italo De Diana, 23(2), 306.

Adaptable Educational Courseware: An Antidote to Several Portability Problems, by Italo De Diana, with Sjoerd de Vries, 23(2), 225.

The Portability of Computer-Related Educational Resources: Summary and Directions for Further Research, by Italo De Diana, with Betty A. Collis, 23(2), 335.

Conditions that Facilitate the Implementation of Educational Technology Innovations, by Donald P. Ely, 23(2), 298.

Designing Educational Software for International Use, by Greg Kearsley, 23(2), 242.

Cultural and Social Restraints on Portability, by Marco Murray-Lasso, 23(2), 252.

The POCO Project: A Response to the Portability Dilemma, by Cor G. J. Nagtegaal, 23(2), 184.

Computer-Related Media Portability in International Distance Education: Making Informed Decisions, by Geoffrey Potter, 23(2), 284.

Software Engineering for Portability, by Ivan Stanchev, 23(2), 204.

Portability: Cross-cultural Educational Perspectives, by Donald P. Ely, 23(2), 272.

Is Logo Portable?: An Australian Experience, by Greg Grimmett, 23(2), 195.

Portability of Educational Software: Some Reflections from a Scandinavian Point of View, by Bengt Bengtsson, 23(2), 161.

Special Education

The Change-Over to Computer-Based Technology in Early Childhood Special Education, by Janice R. Howard, with J. Christian Busch, J. Allen Watson and Daniel D. Shade, 23(4), 530.

Student Performance

Cognitive Styles and the Education of Computer Information Systems Students, by Jo Ann C. Carland, with James W. Carland, 23(1), 114.

System Design

A Knowledge Base for Information Technology in Educational Administration, by Moshe Telem, 23(4), 594.

Teacher Training

Hindsight: Reflections on Retraining Secondary School Teachers to Teach Computer Science, by Robert M. Aiken, with Glenn E. Snelbecker, 23(3), 444.

Teachers' Perceptions of Computer Needs, by Janice E. J. Woodrow, 23(4), 475.

Teaching Methods

The Use of Applications Software in School: Development Processes as a Model for Situated Learning, by Kerry Freedman, with Anju Relan, 23(1), 101.

Characteristics of Logo Instruction Promoting Transfer of Learning: A Research Review, by Janet K. Keller, 23(1), 55.

Technological Change

The Economics of Educational Software Portability, by Joao Batista Araujo e Oliveira, 23(2), 318.

The Portability of Computer-Related Educational Resources: An Overview of Issues and Directions, by Betty A. Collis, with Italo De Diana, 23(2), 147.

Conditions that Facilitate the Implementation of Educational Technology Innovations, by Donald P. Ely, 23(2), 298.

The Portability of Computer-Related Educational Resources: Summary and Directions for Further Research, by Italo De Diana, with Betty A. Collis, 23(2), 335.

Technological Competence: Training Educational Leaders, by William C. Bozeman, with Dennis W. Spuck, 23(4), 514.

The Effects of Faculty Characteristics on Computer Applications in Instruction, by Kate Mackowiak, 23(3), 396.

Contemporary Attitudes Toward Computers: An Explanation of Behavior, by David L. Turnipseed, with O. Maxie Burns, 23(4), 611.

Teachers' Perceptions of Computer Needs, by Janice E. J. Woodrow, 23(4), 475.

Telecommunications

Management Information Systems and Student Affairs, by David E. Johnson, Jr., with David (Chi-Chung) Yen, 23(1), 127.

Testing

Testing by Computer: Findings in Six Years of Use 1982-1988, by Alan C. Bugbee, Jr., with Frank M. Bernt, 23(1), 87.

Training

Characteristics of Logo Instruction Promoting Transfer of Learning: A Research Review, by Janet K. Keller, 23(1), 55.

Word Processing

The Introduction of Word Processing Into a Grade 7/8 Writing Program, by Curt Dudley-Marling, with Jo Oppenheimer, 23(1), 28.

Language Arts and Keyboarding Skill Development: A Viable Approach for Teaching Elementary School Students, by Carolee Sormunen, with Gail Wickersham, 23(3), 463.

Writing

The Effect of Computer-and-Writing Instruction on Prospective English Teachers' Attitudes Toward and Perceived Uses of Computers in Writing Instruction, by W. Michael Reed, 23(1), 3

The Introduction of Word Processing Into a Grade 7/8 Writing Program, by Curt Dudley-Marling, with Jo Oppenheimer, 23(1), 28.

Special thanks to Robert Atwood for his assistance in preparing the programming for the database which produced these indices.
